

iConceive® | Clinic Hub | Quick Start Guide

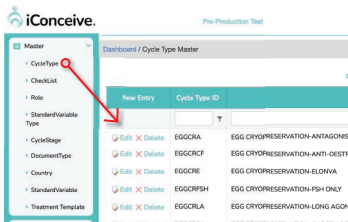

1. Getting Started

Go to **iConceive.au** and click on the **Log In** button in the top right corner.

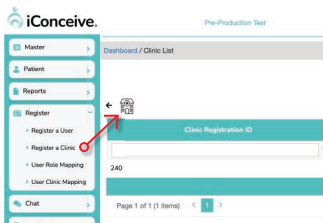

2. Use your welcome email Username and Password and Log In.

- 💡 Allow time for the system to recognise your Username and auto populate the clinic field with your practice name for selection.
- 💡 Add the URL to your desktop for faster access next time.

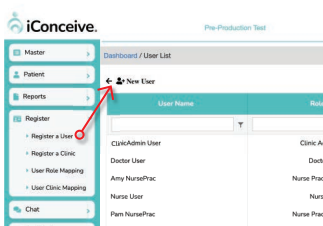

2. View the range of iVF Cycle Type Masters

- Review the treatment templates provided
- Edit the templates if necessary in line with your practice protocols
- Advanced users can add new treatment protocols, stages and variables to the Masters as required.

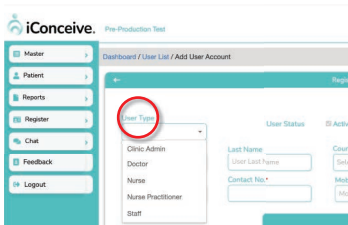

4. Register your Clinic or Clinic List

5. Establishing the Clinic Hub Users List

Add and allocate the role required for each of your personnel from one of the five access levels provided; Practice Admin, Doctor, Nurse Practitioner, Nurse or Staff User.

6. Add User Account

Select user type from the drop-down menu

* You must complete all mandatory marked fields and press Submit

7. Add Patient Registration

- Enter your patients details including all mandatory fields
- 💡 Include your Patient Management internal ID # to easily identify patients
- 💡 Download the **iConceive App** on your phone, register a test patient, initiate an iVF treatment and test the system on your phone.
